BUCHU.

## THE GREAT DIURETIC.

## TWO HUNDRED YEARS.

H. T. HELMBOLD claims a superior mode of extracting its virtues.

The experiments were made while engaged in the DRUG BUSINESS in the City of Philadelphia, thirteen years since, prompted by the alarming increase of disease of the Bladder, Kidneys, Gravel, and Urinary Organs, existing in both sexes. These diseases were justly attracting as much attention as diseases of the Liver, or any other vital organ of the body. Upon the sound and healthy condition of these important organs, the life and happiness of the entire human family depends. That BUCHU should act upon both Liver and Kidneys, to prepare it so that it would retain its strength and active principle, was his aim. It must not be made, as housekeepers make tea, by boiling. It is a delicate Leaf, and its active principle would be destroyed by such a process. It must be prepared in VACUO, and from the Long-leaf, fresh and carefully selected.

THE SUPERIORITY OF MY MODE OF PREPARATION BEING ACKNOWLEDGED, I now ship even to the point (CAPE OF GOOD HOPE) where the leaves are gathered, large quantities of

## MY FLUID EXTRACT.

## IN FACT, THE ARTICLE STANDS PRE-EMINENT AND IS KNOWN IN ALL PARTS OF THE WORLD.

The first and most important object was to offer to the afflicted a remedy that was perfectly safe, and could be taken by adults and children. Ignorant persons who pay no attention to dose, direction, or advice, might mean, "That if a teaspoonful, taken occasionally, did good, two would be better, and perhaps a bottle would cure in a day."

Many have broken down their health by despatch and on this principle, but they had been gone in doing so.

What I would have understood is that no injury can arise from its use. It is as safe as any article of food, but patients must not expect any medicine to rebuild a wrecked or shattered constitution in a few days.

This truth is so self-evident that it would seem unnecessary to repeat it, were it not for the fact that thousands of persons who are intelligent in all other matters seem to think, unreasonably, that a curative agent must exhibit its specific effects immediately, when the fact is that time is often an important element in the progress of a safe and thorough cure, even when the medicine is working the best results. These same persons would expend HUNDREDS, YEA, THOUSANDS OF DOLLARS, in articles of LUXURY and DISSIPATION, and think less of it than they would of FIFTY DOLLARS in medicine to rebuild a BROKEN-DOWN and WORN-OUT CONSTITUTION.

Notwithstanding the number of years I have been engaged in business, given may be persons located at a distance that would like to be satisfied on all the points. Having been educated a druggist, I append the following:

## FROM THE LARGEST MANUFACTURING CHEMIST IN THE WORLD:

"I am acquainted with Mr. H. T. Helmbold. He compiled the drug store opposite my residence, and was successful in conducting the business where others had not been equally so before him. I have been favorably impressed with his character and enterprise."

"WILLIAM WRIGHTMAN,

Form of Powers &amp; Weightman,

Manufacturing Chemist, Ninth and Brown-sts., Philadelphia.

Nov. 15, 1861."

I propose to give evidence that this Remedy is not a Patent Medicine. The objection which generally lies against all discoveries and inventions is medicine is "Patenting." If anybody should discover a remedy to prolong life, or an infallible cure for cholera or consumption, what a monster would be to withhold his knowledge! We have yet to learn from a what chapter or verse in Scripture to quote, "That men may not hold a secret of their fellow-men of any disease."

Now we ask Picketts, affected people, or, in short, men who are possessed of every kind of sense but common sense, and all kinds of

operations that their own. The BUCHU is a good thing. It has hundreds of thousands of living witnesses to attest its virtue and commend it.

BUCHU.—Its odor is strong, diffusive, and somewhat aromatic; its taste is bitterish, and analogous to that of mint. It is given chiefly in complaints of the Urinary Organs, such as Gravel, Chronic Catarrh of the Bladder, Morbid Irritation of the Bladder and Urethra, Diseases of the prostate Gland, and Retention of the Urine, from a loss of tone in the parts concerned in its excretion. It has also been recommended in Dyspepsia, Chronic Rheumatism, Cutaneous Affections, and Dropsy.

I would respectfully refer to the following prominent Wholesale Druggists, most of whom have been engaged in business since I embarked in the manufacture of the Fluid Extract, and who will attest to their growing popularity. There are no preparations that equal their sale.

## GREAT SUFFERING.

## A PERMANENT CURE OF GRAVEL OF TWELVE YEARS' STANDING—STONE PASSED AND TO BE SEEN.

BIRMINGHAM, CONN., Dec. 15, 1869.

Dr. HELMBOLD—Dear Sir: It is with much pleasure that I write you upon facts respecting myself. I do not know hardly how to express myself. I have been for the last ten or twelve years the greatest sufferer man could be and live; but more sometimes than others. The complaint was the "Kidneys" and "Bladder." I have been sometimes from twelve to fourteen hours, and wanted to make water every minute, but could not. Have consulted doctors, both in Massachusetts and this State, and taken pills, I may say, by the quart; also Epsom medicines; but found no relief from any, and got worse the last six months. I was so that I could scarcely get about. I could not rest night or day. I felt much like writing to you a full statement of my case at the time, but thought my improvement might only be temporary, and therefore concluded to defer, and see if it would effect a perfect cure, knowing that it would be of greater value to you and more satisfactory to me.

I am now able to report that a cure is effected, after using the remedy for five months.

I have not used any now for three months, and feel as well in all respects as I ever did.

Your BUCHU being devoid of any unpleasant taste and odor, a nice tonic and invigorator of the system, I do not mean to be without it whenever occasion may require its use on such occasions.

M. McCORMICK.

Should any doubt Mr. McCormick's statement, he refers to the following gentlemen:

## FROM THE PRINCIPAL PHYSICIAN OF THE SANITARY INFIRMARY OF THE STATE OF LOUISIANA.

PARIS LA FOURCHIE, LA., April 29, 1870.

H. T. HELMBOLD, Esq.—Dear Sir: I have in my practice and in the infirmity of many years, known of the Urinary Organs, especially Helmbold's Extract of Buchu, and can confidently say that I have never known it to be used without the greatest beneficial results. I have consulted patients after partaking of it, and they invariably confirm my state-

ment.

I am, Sir, very respectfully,

Yours, H. T. HELMBOLD.

Dr. HELMBOLD: I have been suffering for a long time with disease of the kidneys, called on us for Helmbold's Extract Buchu, and after having used eight bottles, stated to us that he considered himself permanently cured. He has no hesitation in stating that he received more benefit from the use of Helmbold's Extract Buchu than from the treatment of various eminent physicians during the time above stated, and recommends the same to all who may be suffering from any disease originating from a disordered state of the kidneys. Statements similar to the above have been received by us from various sources during the past four years. Yours truly,

FRASER &amp; PLENN, Marietta, Ohio.

HACKENACK, BRIDGE CO., N. J., April 26, 1870.

Dr. H. T. HELMBOLD—Dear Sir: I had been suffering for a long time with Diabetes, and had been under treatment for the same by (1) three of the most eminent physicians of this place, viz: Drs. Hackenack, Hall, and Smith, without any apparent beneficial result. Having heard of your "Fluid Extract Buchu," I concluded to try it, although I had not little faith in its curative properties. I am happy to state that after having taken four bottles of your "Buchu," I am entirely cured, and I feel it but my duty to you and the community at large to inform you of the fact that I have been permanently cured by your medicine, after having been afflicted by the (2) three physicians above named that my disease was incurable. Truly yours,

JOHN H. WIGANT.

I respectfully refer to any citizens of Hackenack, City and County of New-York, as John H. Wigant, being of the village of Hackenack, County of Bergen, State of New-Jersey, being duly sworn, deposes and says that the foregoing is true to his knowledge.
